

## INTERVIEW

# A TREE

Have you ever thought what a lemon tree or a rose would share with you if they could speak? Their life is a little bit different to ours, but like us, each tree is unique and perhaps they have some things to tell us, if we really listen to them?

### Instructions:

Get out in the garden or your balcony, observe the trees, plants or flowers that live there, choose the one that catches your eye and interview it. Since the plant you 'll choose, can't speak to you, use your imagination to come up with the answers! You can use the questions below or think your own.

### Questions:

**What kind of plant are you?**

**How old are you?**

**Have you always been the size you are now?**

**Where did you come from?**

**Do you like where you live now and why?**

**How do you spend your days?**

**Who comes to visit you?**

**What events have you seen in your life?**

**Do you have any advice or message to share with people who are staying home these days?**

Draw here the plant  
you just interviewed
